**RARE BOOKS FROM EARL
PEMBROKE'S LIBRARY**

In Two Days \$14,000 Has Been
Realized From Sale of Antique
Volumes

London, June 26.—Thirty-nine hundred
dollars were realized for the famous
"Poor Man's Bible," the only copy
of which is known to exist, and other
valuable books that have never
come into a sale room. They form
part of the collection of Earl
Pembroke, of Wilton House, which
was the residence of the Earl's
parents, and which has ever since
been a mecca for bibliophiles and
antiquarians.

One hundred and five thousand
dollars were realized for the sale
yesterday. There were included
seventy-five printed and illuminated
books, including a copy of the first
edition of Caxton's "The Game and
Playe of the Quene of England," sold
for \$9,000. The third edition of Diderot
and Nodot's "Encyclopédie," in
several volumes, which is the only
one to be in private hands,
brought \$1,500. A copy of the
"Old Age," was sold for a similar
amount, while a complete copy of the
"Apocalypse," Valence, 1486, written
in 1446, of which the only
other copy is in the British Museum,
sold for \$10,700.

Charles de Grotius, Book II, the
first book printed in Italy, of which
copies remain and probably the first
printed in Italy, was sold for \$1,500.
An early edition of Dante's
"Works of Illyriensis and Alfonso,"
which were the first books printed
in Italy, was sold for \$1,500. A copy of
the first Nylundic edition of
"The First Mamluk," of which
the title page is signed by the
author, was sold for \$1,500. "Hathaway's
"Catholicon," of which only one copy
exists, was sold for \$1,500. "The
National," was sold for 15c.

There will remain 116 lots of the
books, which will be sold at an
auction and some of the most
famous.

**BI-LINGUAL SCHOOL
CASE NOW IN COURT**

**A Dispute Between English and
French Separate School Trustees
in Ottawa in Courts**

Ottawa, June 25.—Mr. Justice Lef-
oux today began the hearing of what
is popularly called the "bi-lingual
school case."

A hearing was adjourned for
the English trustees to compel the
French majority on the board to dis-
continue the employment of unqual-
ified teachers, and to obey the regu-
lations of the school board in regard
to rule 17, and to prevent
the removal from Ottawa of what
the regulation is being disobeyed.

An injunction was obtained by
H. E. Doyle, secretary of the sep-
arate school trustees, and the teachers
in question received no salaries for
the past month or more.

J. E. Doyle, secretary of the sep-
arate school trustees, and the
trustees, principal of the vicarage
school, have been in Ottawa since
yesterday.

During the course of Mr. Doyle's
evidence Mr. W. M. Tilley, Toronto,
crossed for the trustees, told the
assembly from H. E. Doyle that
on the defence, that "we admit we
have not done so either before or after
the present case or injunction was
issued."

Mr. Doyle, in his evidence, said
that the trustees had left in
a body to the principal, Mr. Doyle,
and informed him who he
was.

Mr. Dumas denied that he had received
any demands from parents to
that effect, and said that when the
instant licensee arrived and she had
done so at their request, but had re-
mained to the end of the school
year or members of the board would
have been informed.

The case is continuing.

**10,000 HOMELESS
THROUGH BIG FIRE
AT SALEM, MASS.**

Greatest Loss Has Fallen Upon
Factory Employees, Chiefly
French Canadians

**TOTAL ESTIMATED IN
APPROXIMATELY \$10,000,000**

**Prompt Relief Has Been Rushed
From All Parts to the Fire
Sufferers**

Salem, Mass., June 26.—Relief for
the thousands of persons who lost
their homes in the great fire which
broke out in Salem last night poured
in. Within the limit of half the city
were still smoldering, actual want had
been relieved, and the city had a more
home-like management of the situ-
ation. The factory employees, chiefly
French Canadians and Poles, who
are the most numerous in the city,
who are home-less, and they have
no place to go, are being given emer-
gency lodgings, but their employ-
ment as well. The loss to the mill
industry, commerce, and the city
institutions and churches is predicted
to be \$10,000,000. The assessors estimate the total
loss to be \$15,000,000.

The loss of life was as far as known
restricted to three persons, one of
whom was recovered from her ten-
ement by a fireman, and another, Mr. P. Wilfert, burned to death in his
home on Prescott street, to which he
had moved from his former home
belongings after he had once escaped;

he was injured in the fire, but had
been immediately removed to a hospital
in Boston, and so far had recovered.

Mr. Doyle, principal of the vicarage
school, has been in Ottawa since
yesterday.

During the course of Mr. Doyle's
evidence Mr. W. M. Tilley, Toronto,
crossed for the trustees, told the
assembly from H. E. Doyle that
on the defence, that "we admit we
have not done so either before or after
the present case or injunction was
issued."

Mr. Doyle, in his evidence, said
that the trustees had left in
a body to the principal, Mr. Doyle,
and informed him who he
was.

Mr. Dumas denied that he had received
any demands from parents to
that effect, and said that when the
instant licensee arrived and she had
done so at their request, but had re-
mained to the end of the school
year or members of the board would
have been informed.

The case is continuing.

The Grattan Oil Co. Ltd.

**AN EDMONTON FIELD
DEVELOPED BY LOCAL MEN**

The first issue of 100,000 shares of Grattan Oil Company's stock offered to the public is almost subscribed. Get in on the balance at the OLD PRICE.

**Non-Personal
Liability**

50c Per Share

PAR VALUE \$1.00

Non-Assessable

A study of the geology of the district indicates most favorable stratigraphical features. The oil bearing strata—the Dakota and the Devonian—are closely associated at an estimated depth of not more than 1800 feet.

Investors are invited to study our prospectus and to call at the company's office where plans and maps may be inspected.

Mr. Investor, remember the small capital of one man is not sufficient to get results and develop the Edmonton district, but when combined with that of the many under honest company management such as the Grattan Company guarantees an opportunity for success is open to every individual who relies on his reasonable speculative instinct.

This company is composed of well known Edmonton men
who have been prominently identified for years with the development of the Edmonton district and Northern Alberta.

This is a developing company and investors have a guarantee that the proceeds of the sale of the stock will be expended on the development of oil wells in the company's leases of 1020 acres. A large block of stock is left in the treasury for the benefit of the shareholders.

The lands leased were selected by Chas. E. Taylor of Edmonton from a great number of sites prospected in different parts of Alberta, and under his personal supervision drilling will be carried on.

The company is now ready to drill. Four carloads of machinery are now being unloaded at Irma Station. A combination Rotary and Standard Rig will be used, capable of drilling a hole to a depth of 3500 feet. Work will be continued until the field is thoroughly tested.

**THINK OF IT! One Dollar Shares
For 10 Cents Each**

And the Authorized Capital Only \$500,000.00

Yet this is the proposition that the Pembina Oil & Asphalt Company Ltd., Non-personal Liability, offer to the public. A limited number of shares in the above Company will be offered at 10 CENTS PER SHARE

**The Company Controls Over 3000 Acres
of the Best Oil Leases in Alberta**

We own the CLOSEST PROPERTY to the drilling site of Nakamun Oil and Asphalt Well. At Legal, we are close to the well now being drilled by the American-Canadian Company. At Wild Horse there are numerous MUD VOLCANOES, which the best authorities claim are a positive indication of oil, which has since been verified by crude oil seeped from that locality. Asphaltum taken from our holdings in the Wetaskiwin District assayed 36 gallons of Crude Oil to the cubic yard.

Yet in the face of this the Directors are putting this on the market at TEN CENTS per share. For further particulars and prospectus apply to

Does the freshness of your food mean anything to you?

There's only one answer—a decided "Yes!" Then do you know that you can't buy a stale package?

Kellogg's

CORN FLAKES

The reason? Because your grocer gets it right from the factory in small quantities—and because Kellogg's are quick sellers and do not remain long on the shelf.

We encourage merchants to place small orders often rather than large ones.

This is why you get Kellogg's Corn Flakes with all their freshness.

10c per package. Look for the signature.

C.P.R. TO ABDON COAL MINES IN THE TOWN OF HOSMER

Twelve Hundred Miners Throw
Out of Work, and Merchants
Ruined

**TOWN HAS INDUSTRY
OTHER THAN C.P.R. MINES**

Dismantling of Machinery Is Now
Under Way—Company Has
Lost Millions

Calgary, Alta., June 26.—Twelve hundred miners in the town of Hosmer, not far from Fernie, B. C., is about to be thrown out of work, and the town is ruined to the fact that the coal mines at Hosmer, which were operated by the Canadian Pacific railway company, have shut down and closed forever. The company has lost millions of dollars and is well under way. Merchants and professionals have been ruined, and are almost bankrupt with fear, because their trade is worthless once the mines have been closed. Hosmer is the only town in the country that supports the town of Fernie, and the town of Fernie would be shut down had the price of coal been raised for some time, but the citizens of Hosmer are not to blame. The report that the miners were unfounded when the work of dismantling the machinery of the mines was commenced and many miners have been almost burdened with families, immediately closed the mines.

The Hosmer mines have been a big disappointment to the men, because the development work has been going on at a heavy loss in hopes that some day the seams instead of widening, would narrow, and the opportunity would be given to the miners to be employed by the mine owners in charge.

The abandonment of Hosmer will make the second desert town in the province, the first being Morley, which is the first town to be abandoned owing to the coal miners. The miners are in a bad way, and the business is at a standstill. It is known millions of dollars were spent in trying to re-locate coal at Morley, and the miners are worse off as much was lost at the Hosmer mines than the Canadian Pacific company.

BIGGEST BUSINESS BOOM IN HISTORY OF UNITED STATES

President Wilson Delivers Emphatic Message Concerning
Anti-Trust Legislation

**'WE KNOW WHAT WE ARE
DOING AND WILL DO IT'**

Like Currency Reform Legislation
Will Give to Business Sense
of Security

Washington, June 25.—Under the business given by anti-trust legislation soon to be passed by Congress, President Wilson has declared that the country's greatest business boom since the war will be checked. The president's first answer to the opponents of the legislation is that this section of Congress is to propose a bill which will be delivered with determined expression of the purpose of the country to be entrenched area.

"This is what we are doing," said Mr. Wilson. "We purpose to do it the way the advice for we have been given. We are going to have a group of men who understand the business of the country, and the effect of the effect is going to be exactly what the effect of the currency reform will be."

Spoke to Virginia Editors.

Washington, June 25.—A group of Virginia editors in the east room of the Hotel Washington were interested in the failure of the H. B. C. Coal Company. They were told that the White Horse earlier in the day, had been involved in a serious accident.

"President Bush," said Mr. Wilson, "has been to suggest that the coal mining could only be continued at a loss. When over two hundred men have been thrown out of employment and the business is at a standstill, it is only natural that the miners would turn to failure through the summer.

The abandoning of Hosmer will make the second desert town in the province, the first being Morley, which is the first town to be abandoned owing to the coal miners. The miners are in a bad way, and the business is at a standstill. It is known millions of dollars were spent in trying to re-locate coal at Morley, and the miners are worse off as much was lost at the Hosmer mines than the Canadian Pacific company.
